

## Oversize Exhibits

Requests for oversized exhibits and heavy equipment will be considered on a case-by-case basis, and accommodated if the venue allows. With sufficient interest, an outdoor exhibit area may be established. The Forum 2009 welcomes oversized vehicles and exhibits in the Exhibit Hall. Vehicles will need to be able to move in and move out of the Exhibit Hall and meet fire marshal codes. Dimensions that can be accommodated for large vehicles are:

- Weight - 14,000 pounds
- Height - 91 inches
- Width - 94 inches
- Length - 228 inches

The Exhibit Hall will open early for move-in of oversized exhibits and heavy equipment. Single and double exhibits that can be assembled in about 4 hours will be able to set-up on Monday morning, August 24, prior to the conference opening.

Please direct questions about oversized exhibits, heavy equipment, or island booth space to Julee Schultz or Vergil Metts at 865.379.7065.

An exhibit information packet will be sent to you after your registration payment is received. The exhibitor service kit will contain standard Exhibitor Rules and Regulations which must be adhered to for the run of the show.
